PROFESSIONAL SUMMARY

B.Tech CSE(AI/ML) student with hands-on experience in FastAPI, LLM integration, Retrieval-Augmented Generation (RAG), LangChain, ChromaDB, and AI application development. Built GenAI-powered applications including document Q&A systems, AI journal assistants, and semantic search solutions. Passionate about backend engineering, AI agents, and scalable LLM-powered products.

EDUCATION

Brainware University

B.Tech in Computer Science and Engineering , CGPA - 8.32 (till 5th sem)

Barasat, West Bengal

2023 - 2026

Jawahar Navodaya Vidyalaya

Higher Secondary - 69.00% , Matriculation - 88.6%

Kherengjuri, North Tripura

2023, 2021

TECHNICAL SKILLS

Languages: Python

Frameworks: FastAPI, LangChain, SQLAlchemy

Databases: SQLite, ChromaDB (Vector DB)

AI/ML: LLMs , RAG, Sentence Transformers, Semantic Search, Vector Embeddings

Authentication: JWT, bcrypt

Deployment: Railway, Vercel

Tools: Git, GitHub, CI/CD

Soft Skills: Problem-Solving Skills, Team Player, Project Management, Adaptability

PROJECTS

AI Journal API | FastAPI, LangChain, SQLAlchemy, JWT, Groq API, ChromaDB

Mar 2026 | [GitHub]

- Built a **FastAPI-based journaling backend** with secure **JWT authentication**.
- Integrated **Groq LLM** to generate intelligent responses from journal context.
- Used **ChromaDB** to enable semantic search and persistent memory retrieval.
- Implemented API workflows for journal storage, retrieval, and context-aware interactions.

Document Q&A API | LangChain, SQLAlchemy, RAG, ChromaDB, HuggingFace

Mar 2026 | [GitHub]

- Built a **RAG-based question-answering system** for querying document content.
- Used **LangChain** with **ChromaDB** and **HuggingFace embeddings** for retrieval.
- Enabled semantic retrieval to return context-aware and relevant answers from source documents.
- Integrated document ingestion and retrieval pipelines for efficient question answering.

URL Shortener API | FastAPI, SQLite, Railway

Feb 2026 | [GitHub]

- Developed a **scalable URL shortener** with **FastAPI** for link creation and management.
- Used **SQLite** for persistent storage of shortened URLs and redirect mappings.
- Implemented efficient routing and redirection logic for reliable URL resolution.
- Deployed the API on **Railway** for accessible and lightweight backend hosting.

EXPERIENCE

Machine Learning Intern (Virtual) | SkillCraft Technology

July 2025 – Aug 2025

- Completed a **1-month Machine Learning Virtual Internship** at **SkillCraft Technology**, developing four end-to-end ML projects including House Price Prediction, Customer Segmentation using **K-Means**, Cat vs Dog Classification, and Hand Gesture Recognition.
- Strengthened hands-on skills in **supervised and unsupervised learning**, computer vision, model training, evaluation, and deployment by building real-world ML pipelines under tight timelines.
- Earned a **Letter of Recommendation** for strong performance, timely delivery, and effective application of machine learning concepts across multiple problem domains.

Certifications

Samsung Innovation Campus – Certificate of Completion	Nov 2025
Deloitte Australia – Data Analytics Job Simulation	Oct 2025
PostgreSQL: Become an SQL Developer	April 2025
IBM Technovate – Certificate of Participation	Feb 2025

Languages

English
Hindi
Bengali

Hobbies

Playing Badminton

Declaration

I hereby declare that the information provided above is true to the best of my knowledge and that I possess the skills, qualifications, and project experience mentioned in this resume.
